Business Chamber

Canberra Business Chamber

The Chamber is **the voice of industry in the Canberra business community**. We're committed to promoting economic growth and development for our region by providing services to our members. We're a member-based organisation, representing over 500 businesses in the ACT as well as many of the ACT's key industry-specific associations.

What We Do

- **Networking:** We connect businesses with each other to exchange ideas, share best practices, discuss business strategies and develop new opportunities to thrive and grow. We run numerous events throughout the year that allow you to meet and connect with other like-minded people in the region.
- **Trade Assistance:** If you're thinking of exporting overseas, or want to connect with foreign firms, we can help. We assist in the preparation of trade delegations and international visits, trade document certification and much more.
- **Advocacy:** A say in the decisions that affect your business. We influence government policy and decisions through our role as the peak representative of the private sector to the ACT and federal governments. We're also the Territory's representative on the Australian Chamber of Commerce & Industry.
- **Workplace Relations/ Industrial Relations Advice:** We provide our members with support on payment, wages, superannuation advice, awards and many other matters. We'll help you navigate the complex world of employment responsibilities.

For 40 years, the Chamber and its predecessor organisations have been helping businesses like yours.
